

This information is required by mobile carriers in order to enable SMS.

Mobile carriers and the main SMS Aggregates that cover the US and CA are now requiring businesses to provide additional information before SMS can be provisioned for all US and CA numbers. The following fields are all required and will be used to register your business and your SMS use cases with The Campaign Registry (TCR); the registrar chosen by the carriers. You can learn more about TCR and other SMS changes <a href="https://example.com/here/businesses/b

Fields must be typed, handwritten responses will be rejected. Upload completed form securely here.

Business information

Please make sure your business name and federal business ID (EIN for US businesses, Corporation Number for Canadian registered businesses) match exactly. Mismatches (even minor) will result in immediate rejection by TCR.

All fields required unless stated otherwise.

Legal business name:			
Business type: (select one)	Publicly traded Private company	Non Profit Government	
Country of registration:

Support email:			
Support phone number:			

How are you using SMS

Carriers are requiring businesses to declare how they use SMS, or how they intend to use SMS. As part of this process, TCR and carriers also want to ensure businesses are aware of opt-in and opt-out requirements.

All fields required				
How are you using SMS today or plan to use SMS in the future? (select all that apply)	MOST COMMON Customer Care or Conversational	OTHER USE CASES 2FA (pin codes sent via SMS)		
	☐ Account Notification☐ Marketing	□ Delivery Notification□ Higher Education		
Carriers now require you to get permission from every recipient before you message them. The type of permission (implied, written, logged) varies depending on the type of messages you are sending. Please review the consent/ opt-in requirements on page 12 of the CTIA guidelines.				
How are you obtaining	MOST COMMON			
consent (select all that apply)	Text message exchange in which the Message Sender replies to the consumer with responsive information			
	OTHER OPT-IN METHODS			
	☐ Entering a telephone number through a website			
	Clicking a button on a mobile webpage			
	☐ Sending a message from the Consumer's mobile de	evice that contains an advertising keyword		
	☐ Signing up at a point-of-sale (POS) or other Messag	e Sender on-site location		
	Opting-in over the phone using interactive voice resp	ponse (IVR) technology		
Please note, that depending on your use case you may or may not be utilizing opt-in keywords or an opt-in message. However, TCR requires these fields, and you should put in information that matches your current implementation, or what a future implementation may look like if you choose to use SMS in a way that requires these in the future. Failure to fill this out with industry recognized keywords and appropriate messaging will result in your registration being rejected.				
Opt-in keywords (keywords a user can use to				
subscribe to messages from you)	Typical opt-in keywords: START or S	SUBSCRIBE		
Opt-in message				
(what the recipient receives after opting in, min of 20 and max of				
320 characters)	Replace (COMPANY_NAME) with you	ur company name		

messages. Please state which k	g SMS, carriers require that you honor recipient requests to opt-out of receiving SMS seywords you will honor (note STOP and UNSUBSCRIBE are required), as well as the firm receipt of the recipients opt-out request.
Opt-out keywords (keywords a user can use to stop receiving messages from you)	Carriers require you to support STOP and UNSUBSCRIBE
Opt-out message (what the recipient receives after opting out, min of 20 and max of 320 characters)	Replace {COMPANY_NAME} with your company name
	respector (com rust_in ma_) man your company manic
message. However, TCR require	our use case you may or may not be utilizing HELP keywords or a HELP es these fields, and you should put in information that matches your current implementation may look like if you choose to use SMS in a way that requires
Help keywords (keywords a user can use to contact you or get more information about your business)	Typical help keywords: HELP or INFO
Help message (what the recipient receives after sending a help keyword, min of 20 and max of 320 characters)	Replace {COMPANY_NAME} with your company name
-	riers to understand how your messages typically look to whitelist those messages, and f character. It's important to use messages that best reflect those your recipients will

Sample SMS message two (min of 20 characters, max of 1,024 characters)	

(min	pie SMS message three of 20 characters, max of I characters)			
SN	IS content and	I messaging policies		
Pleas	e confirm that you have read,	understand, and agree to the following policies.		
All fiel	ds required			
	I understand that my use of the services is governed by the Terms of Service or Master Services Agreement, Acceptable Use Policy, and <u>SMS Messaging Policy</u> .			
	I represent that my use complies with CTIA A2P guidelines , including but not limited to: Documenting consumers' consent as required Use of active keywords including HELP Volume and frequency of messages Using "STOP" command to opt the consumer out of further messages. 			
	The Campaign Registry (TCR) is a third-party company that acts on behalf of the mobile carriers to vet and register phone numbers. TCR charges registration and maintenance fees for all numbers enabled to send and receive SMS. Although RingCentral is currently paying these fees for its customers, starting April 3, 2023 TCR fees will become the customer's responsibility. For most customers the monthly maintenance fee will be \$10 per month, however some customers may incur higher charges as dictated by TCR, depending on their SMS use case. More information about TCR and required fees is available at https://www.campaignregistry.com/ .
